NEXT FLOOR TECHNOLOGY FOR TOURISM ACCELERATOR

Executive Summary

Facts

2-3 Batches per year

10-15 Startups per batch

3 months program in 6 event blocks per 3 days

25 industry-mentors per batch

30 keynote speakers from the industry

300 investors

Focus

- Digitisation
- De-saisonalisation
- Deep tech to increase value added
- New tourism concepts
- Medical tourism
- Maintenance
- Innovative staffing concepts
- Sustainability
- Strategies in dealing with the limits of growth (Traffic collapse, erosion of municipalities) Mobility Fintech
- Blockchain
- other Deep-Tech

Latest Batch / KPIs

0% no shows

0% drop outs

13 Startups from 7 countries in acceleration

Out of that 9 have been matched with the industry

    - products in use

Real Life Laboratories

    - Startups participate in applied projects

Investment and due dilligence in process

Horizontals

- Chat Bots
- Blockchain
- Robotics
- Crypto currencies
- Voice recognition
- ML-driven optimization (z.B. Logistik)
- Behavioural economics applications
- Data Analytics
- Payment systems
- Advanced algorithms
- Other Deep Tech solutions
