

## Agenda

### **\*Bavaria\*Israel\* Workshop Series: EU Mission on Cancer**

(EU Mission on Cancer – Submission Deadline: September 2024)

#### **2 online working sessions (11 March & 14 March 2024)**

The goal of the [EU Mission on Cancer](#) is to improve the lives of more than 3 million people by 2030, through prevention, cure and for those affected by cancer including their families, to live longer and better. The objectives include: (1) Understand; (2) Prevent what is preventable; (3) Optimise diagnostics and treatment; (4) Support quality of life; (5) Ensure equitable access in all aforementioned areas. Projects under this mission should contribute to setting out a credible pathway for implementing the Mission on Cancer. In 2024, the Commission estimates a total budget of 119 Mio. € for all topics under this mission.

This workshop on **selected topics** from the **EU mission on cancer** invites researchers from academia and R&D driven industry from Bavaria, Israel and other EU countries to explore new cooperation and network opportunities and to compose a one-pager as a feasible starting point for a HEU-proposal. The event is organized by experts of the [Bavarian Research Alliance \(BayFOR\)](#) and the [Israel-Europe R&I Directorate \(ISERD\)](#).

#### **Parallel Workshop Sessions (choose one workshop):**

**Workshop 1:** Accessible and affordable risk predictor tests to advance early detection of heritable cancers in European regions (*Draft Version*)

**Workshop 2:** Improving the understanding and management of late-effects in adolescents and young adults (AYA) with cancer (*Draft Version*)

**What to expect?** Among others, the workshop will address following questions: What are the goals and benefits of the EU-Mission on cancer? How to compose a convincing HEU- proposal? How to build a competitive consortium? Why (not) to become a HEU-coordinator? How to write a first draft and how to get the proposal writing process started? These and further questions will be addressed in our workshop session on selected topics of the EU-Mission “Cancer”.

**Please note:** The event is **free of charge**. In order to have a fruitful discussion during the working sessions, the number of participants is limited to **max 12 participants** per breakout session.

**Registration and contact details:** If you would like to participate in the workshop sessions, please register via email to [abelmann@bayfor.org](mailto:abelmann@bayfor.org). Please indicate the workshop you are interested in, your field of expertise and how you would contribute to a potential proposal. Prior to the workshop sessions, we would be happy to schedule a short pre-meeting with you.

**Please don't hesitate to contact us in case of any further question.**

**We are looking forward to meet you on 11 & 14 March 2023!**
