

## Invitation

Please join us to exchange over a cup of coffee on key questions related to the Bavaria-Québec/Alberta/International scientific cooperation in times of COVID-19. In an informal setting, we are pleased to welcome Mark Mühlau, M.D., Professor of Neurology at the School of Medicine, University Hospital Klinikum rechts der Isar, Technical University of Munich (TUM). Professor Mühlau will give us insights into the newly launched bilateral project “AIMS” he is leading together with Professor Julien Cohen-Adad, Polytechnique Montréal. “AIMS” stands for Artificial Intelligence for an integrative approach to analyze the brain and spinal cord in Multiple Sclerosis.

The project is funded under the Bavaria-Québec call for proposals 2021 on AI for Health.

### **AIMS– AI to analyze the brain and spinal cord in MS**

#### *Forschungscafé*

**Guest Speaker: Mark Mühlau, Professor of Neurology, University Hospital, TUM**

*Moderation: Dr. Florence Gauzy, WKS BayFOR*

Thursday, 07.7.2022, 14:00 - 14:30 pm (CEST)

Video conference

Our science cafés take place regularly on different topics. To allow for an authentic interaction between the participants, the number of attendees is limited.
