

Invitation

Please join us to exchange over a cup of coffee on key questions related to the Bavaria-Québec/Alberta/International scientific cooperation in times of COVID-19. In an informal setting, we are pleased to welcome Andreas Kist, Professor at the Department for Artificial Intelligence in Biomedical Engineering at the Friedrich-Alexander-Universität (FAU) Erlangen-Nuremberg. Professor Kist will give us insights into the newly launched bilateral project “Airway” he is leading in cooperation with Professor Nicole Li-Jessen, McGill University, Montréal. “Airway” proposes an AI powered wearable device for airway health monitoring.

The project is funded under the Bavaria-Québec call for proposals 2021 on AI for Health.

Airway – an AI powered Wearable Device for Airway Health Monitoring

Forschungscafé

Guest Speaker: Andreas Kist, Professor FAU Erlangen-Nuremberg in cooperation with Nicole Li-Jessen, Professor McGill University, Montréal

Moderation: Dr. Florence Gauzy, WKS BayFOR

Thursday, 30.6.2022, 14:00 - 14:30 pm (CEST)

Our science cafés take place regularly on different topics. To allow for an authentic interaction between the participants, the number of attendees is limited.
