

Invitation

Please join us to exchange over a cup of coffee on key questions related to the Bavaria-Québec/Alberta/International scientific cooperation in times of COVID-19. In an informal setting, we are pleased to welcome the RLS-Energy Network research group on Smart Campus. They have recently published in IEEE *Xplore* an extensive review of the last decade of research on the topic, and will present their findings as well as current challenges.

Under the lead of Prof. Louis Gosselin and Dr. Noémie Chagnon-Lessard (both Université Laval), researchers from the seven RLS Regions (Bavaria, Georgia, Québec, São Paulo, Shandong, Upper Austria and Western Cape) contributed to this paper.
