

Invitation Forschungscafé / Science Café

Please join us to exchange over a cup of coffee on key questions related to the Bavaria-Québec/Alberta/International scientific cooperation. In an informal setting, we are pleased to welcome Dr. Matthias Welzl, Senior Researcher and Coordinator Hydrogen Research and Technologies at the Centre for Energy Technology, University of Bayreuth.

Building on the German-Canadian project HYER - which received funding from the German Ministry of Education and Research (BMBF) and National Research Council (NRC) Canada in 2022 to develop novel AI-based ageing models of electrolysis cells reflecting operating conditions - Dr. Welzl will outline perspectives for further academic and business cooperation toward clean energy.

Building on Project HYER: German-Canadian Collaboration on Clean Energy

Forschungscafé / Science Café

Guest: Dr.-Ing. Matthias Welzl, University of Bayreuth

Moderation: Dr. Florence Gauzy

Thursday, 26th March 2026, 14:00 - 14:30 pm (**CET**) – 9:00 – 9:30 am (**Eastern Daylight Time**)
