

Invitation

Please join us to exchange over a cup of coffee on key questions related to the Bavaria-Québec/Alberta/International scientific cooperation in times of COVID-19. In an informal setting, we continue our exploration of the Canadian participation in the European research programmes. We are pleased to welcome the Horizon 2020 “CORB” group. They work on advanced biofuels and bioenergy with Canada (*Conversion of Organic Residues into Biomethane through combining chemical and biotechnological processes, CORB*), and will share with us their insights on value and challenges of a joint application.

Under the lead of Dr. Tim Bieringer and Dr. Reinhart Schwaiberger (*both University of Applied Sciences Landshut*), the partners involved in the CORB proposal represented a range of stakeholders in the energy system on both sides of the Atlantic.

EU-Canada calls in H2020: The CORB example

Forschungscafé

Guest: Bavarian CORB proposal writing group, and Canadian Friends

Dr. Tim Bieringer, Dr. Reinhart Schwaiberger (both University of Applied Sciences Landshut), Carolin Schuback (BayFOR), Fiona Rumohr (WKS, BayFOR), with special guest Dr. Jennifer Decker (NRC)

Moderation: Dr. Florence Gauzy

Thursday, 26th November 2020, 14:00 - 14:40 pm - Videoconference

Our science cafés take place regularly on different topics. To allow for an authentic interaction between the participants, the number of attendees is limited. We kindly ask you to register in advance. You will receive a link to the virtual conference room the day before. We are very much looking forward to meeting you soon! **Registration is possible until 24th November 2020 per Email to: bayern-quebec@bayfor.org**
