

Norwegian-Bavarian Workshop on Future Opportunities within Energy, Climate and Environment – International Cooperation in Horizon 2020

Brief Outline and Practical Information

In general, networking events provide an excellent platform for stakeholders coming from various disciplines to discuss new project ideas. Here, future coordinators and project partners will have the chance to establish new contacts and seed first project ideas. Participation in our Norwegian-Bavarian Workshop on Future Opportunities within Energy, Climate and Environment gives you the opportunity to present:

- Your specific idea for an innovative collaborative project in order to find potential project partners, or
- Your area of expertise in order to find partners or consortia who may benefit from it.

Participants interested in giving a brief presentation are requested to indicate this when they register for the workshop using the [registration form](#). They are asked to submit their presentation to moegele@bayfor.org by **10 October 2018** at the latest.

Due to the limited timeframe, not all participants will have the opportunity to give a presentation. The organisers reserve the right to select the presentations to be held at the workshop. The presentations received may be included in event materials and made available to all participants.

Presentation Slides

- **Maximum of 3 slides per presentation**, submitted as a pdf document, written in English
- Contact details (contact person, institution, email, phone)

Contents

- **Maximum of 3 minutes for each presentation**
- Clear description of the institution, offered expertise and reference to earlier EU project activities
- Clear outline of project idea, expected scope and impact
- Who are your existing contacts? What is your offer to other consortia?
- Clear outline of what you expect from partners, of your own expertise and the role you can play in a project
